PROFILE

Strong academic and practical foundation in computer systems, network fundamentals, system analysis and design, and technical troubleshooting. Developed an integrated web and mobile application as part of a capstone project, featuring attendance management, inventory management, employee management, account management, and incident reporting, demonstrating the ability to design and implement real-world software solutions. Complemented by internship experience supporting IT operations, web development, graphic design, and technical documentation. Recognized for strong analytical thinking, adaptability, and a solution-oriented mindset in addressing technical challenges. Eager to begin a professional career in IT and committed to continuous learning, professional growth, and delivering reliable, high-quality solutions.

WORK EXPERIENCE

INFORMATION TECHNOLOGY INTERN
PESO CABUYAO (CABUYAO NUTRITION OFFICE)
